## SHARING OF PERSONAL DATA AND CONSENT

In order for us to provide our services to you, we may disclose your Personal Data to insurers, reinsurers, intermediaries, industry bodies, credit agencies and service providers. We will disclose this information if we are required to do so by legislation or any legal process, to protect and defend our rights and property, including intellectual property and when you have given us permission to do so.

The affected individual's consent to this processing of Special Categories of Personal Data and Criminal Records Data may be necessary for Guy Carpenter to be able to provide the services an insurer client requests. Where you are providing us with information about a person other than yourself, you agree to notify them of our use of their Personal Data and to obtain such consent for us.

Individuals may withdraw their consent to such processing at any time by contacting the Guy Carpenter Information Officer using the contact details at the Questions, Requests or Complaints section below. However, doing so may prevent Guy Carpenter from continuing to provide the services to the relevant insurer client. In addition, if an individual withdraws consent to an Insurer's or Reinsurer's processing of their Special Categories of Personal Data and Criminal Records Data, it may not be possible for the insurance and reinsurance cover to continue.

## AUTOMATED DECISION MAKING

Guy Carpenter and other reinsurance market participants analyse and compile information received from insureds, beneficiaries or claimants to model the propensities for insured events to occur. Guy Carpenter uses this to help calculate reinsurance premiums, which feed into the cost of insurance premiums across the insurance market. It also uses the output of this exercise to assist in its risk consultancy activities. Accordingly, Guy Carpenter may use Personal Data to both match against the information in existing models and to create new models to assist in determining the premium pricing in general and for other insureds. Guy Carpenter and other reinsurance market participants may use Special Categories of Personal Data and Criminal Records Data for such modelling to the extent it is relevant, such as medical history for "life and injury" lines.

Guy Carpenter and other reinsurance market participants use similar predictive techniques to assess information that clients and individuals provide to understand fraud patterns and the probability of future losses actually occurring in claims scenarios.

We use these models only for the purposes listed in this Privacy Notice, and, in most cases, our staff make decisions based on the models.

## SAFEGUARDS

We have in place physical, electronic, and procedural safeguards appropriate to the sensitivity of the information we maintain. These safeguards will vary depending on the sensitivity, format, location, amount, distribution and storage of the Personal Data, and include measures designed to keep Personal Data protected from unauthorized access. If appropriate, the safeguards include the encryption of communications via Secure Sockets Layer ("SSL"), encryption of information during storage, firewalls, access controls, separation of duties, and similar security protocols. We restrict access to Personal Data to personnel and third parties that require access to such information for legitimate, relevant business purposes.

## LIMITING COLLECTION AND RETENTION OF PERSONAL INFORMATION

We collect, use, disclose and otherwise process Personal Data that is necessary for the purposes identified in this Privacy Notice or as permitted by law. If we require Personal Data for a purpose inconsistent with the purposes we identified in this Privacy Notice, we will notify clients of the new purpose and, where required, ask juristic entities' consent and/or that they obtain individuals' consent to process Personal Data for the new purposes.

Our retention periods for Personal Data are based on business needs and legal requirements. We retain Personal Data for as long as is necessary for the processing purpose(s) for which the information was collected, and any other permissible, related purpose. For example, we retain certain transaction details and correspondence until the time limit for claims arising from the transaction has expired, or to comply with regulatory requirements regarding the retention of such data. When Personal Data is no longer needed, we either irreversibly anonymise the data (in which case we may further retain and use the anonymised information) or securely destroy the data.

## CROSS-BORDER TRANSFER OF PERSONAL INFORMATION

Guy Carpenter transfers Personal Data to, or permits access to Personal Data from countries outside the Republic of South Africa. These countries' data protection laws do not always offer the same level of protection for Personal Data as offered in the Republic of South Africa. We will, in all circumstances, safeguard Personal Data as set out in this Privacy Notice.

If we transfer Personal Data to other countries outside the Republic of South Africa, we will establish legal grounds justifying such transfer, such as Binding Corporate Rules, model contractual clauses, individuals' consent, or other legal grounds permitted by applicable legal requirements.

Individuals and/or juristic persons can request additional information about the specific safeguards applied to the export of their Personal Data.
